

# PRODUCT SPECIFICATION SHEET

## Steel Gantry Crane with Electric Chain Hoist

### PRODUCT OVERVIEW

Heavy-duty steel A-frame gantry crane system complete with electric chain hoist. This industrial-grade gantry crane features welded steel construction with a powder-coated finish for durability and corrosion resistance. The adjustable height design and rolling casters provide flexibility for various lifting applications in workshops, warehouses, and manufacturing facilities. Electric chain hoist included for powered lifting operations.

### TECHNICAL SPECIFICATIONS

Parameter	Specification
Crane Type	A-Frame Steel Gantry Crane
Construction	Heavy-Duty Welded Steel
Finish	Powder Coated (Yellow/Orange)
Capacity	1-2 Ton (contact for specific rating)
Height	Adjustable
Hoist Type	Electric Chain Hoist
Hoist Power	Single Phase Electric
Hoist Control	Pendant Control
Trolley	Manual Push Trolley
Casters	Heavy-Duty Swivel with Brakes
Safety Features	Overload protection, Emergency stop
Standards	OSHA, ANSI, ASME B30.17

### KEY FEATURES

- Heavy-duty welded steel A-frame construction
- Electric chain hoist with pendant control included
- Adjustable height for various applications
- Mobile design with heavy-duty swivel casters
- Locking brakes for secure positioning
- Powder-coated finish for durability

- Wide span for large workpiece access
- Easy assembly and disassembly

## **APPLICATIONS**

- Manufacturing and assembly operations
- Machine shop lifting and positioning
- Warehouse material handling
- Maintenance and repair facilities
- Loading dock operations
- Engine and equipment removal/installation
- Heavy equipment maintenance

## **COMPLETE SYSTEM**

This gantry crane system includes the steel frame, electric chain hoist, trolley, and pendant control. Contact us for specific capacity ratings, span dimensions, and pricing.
